

SPEAKERS FOR THE UNPLUG TO UPLIFT WEBINAR

November 1st, 2025

(Speakers listed in alphabetical order)

Robert Broad (Hong Kong)

Robert founded [Look Up Hong Kong](#) and [parentpact.lookup.hk](#) to build a collective voice to advocate for our children, kicked into action by a belief that “childhood ends when you give a child a smartphone.” – [parentpact.lookup.hk](#).

David Charalambous (UK and International)

World Foundation for Health, Founder of [Reaching People](#) David’s expertise includes Behavioural Science, NLP, EFT, Dynamics and Communication. David has appeared on numerous podcasts and presented at conferences around the world. “We can significantly improve our communication by understanding some basic concepts. We really can find a way to challenge ideas when we know how.”

Emily Cherkin (U.S.)

Emily is leading the fight for a Tech-Intentional™ childhood [Home | The Screentime Consultant](#) and [First Fish Chronicles | Emily Cherkin | Substack](#)

Diego Hidalgo Demeusols (Spain)

Diego is the driving force behind the [OFF Movement](#), an initiative born from the [OFF Manifesto](#) and [diegohidalgo.net](#) “We are a global movement aiming to better define technology’s place in our lives, putting human interests first.”

Bronwyn Desjardin (South Africa)

Bronwyn Desjardins is Head of EdTech for [Smartphone Free Childhood South Africa](#) and a passionate advocate for intentional technology use in education. [About the Movement - SFC SA](#)

Caroline Fallon (Belgium and Ireland)

Caroline Fallon awakened to ‘the issue’ teaching teenagers in Ireland (her native country), raising children in a screen-free environment, and becoming active

with [Kids Unplugged Belgium](#).

Debra Fry (UK)

Debra tragically lost a child to a suicide accident due to her [daughter's] Electro Hyper Sensitivity (EHS) from the industrial WiFi in her school. Prevention is better than cure. How? Reduce the tsunami of WiFi invading lives. Switch off WiFi in schools, homes and hospitals, and provide wired ethernet access to the internet. [Why Die for WiFi](#), UK.

Jess Kingsford (Australia)

Jess has based the Happy Hearts Parenting Foundation's Program on the very latest research into childhood moral development and moral psychology.

HappyHeartsParenting.org

Antoine Mestrallet (France)

Antoine is a board member of the French NGO [Lève les Yeux](#) ("Raise Your Eyes") founded in 2018. Lève les Yeux is an independent organization free from the influence of the digital industry, acting through awareness-raising, education, and advocacy. Our goal is to promote 'disconnection' to better preserve human attention, and to contribute to the emergence of a more convivial, compassionate, and environmentally friendly society.

Lluna Porto, (Catalonia, Spain)

Lluna has been raising awareness in Catalonia about the harms to children of tech and social media since 2014. Lluna's talk focused on children and pornography.

<https://www.adolescencialibredemoviles.es/>, [Piña por la Educación](#). Lluna endorses <https://www.offm.org/educacion> and [Pacto de Familias Adolescencia Libre de Móviles](#).

Shannon Rowan (US)

Shannon Rowan is a "Wifi Refugee" (electro-sensitive) writer and researcher, and author of several books including "WiFi Refugee; Plight of the Modern-day Canary." Her latest book, [The Red Shoes; Our Devil's Dance with Technology and How We Can Stop it](#), provides insights into our current toxic relationship with the addictive design of digital technology and how to reverse the trend.

wifi-refugee.com

Theodora Scarato, (US)

Theodora Scarato MSW, is Director of the [Wireless and EMF Program](#) at Environmental Health Sciences, a special expert to the International Commission for Biological Impacts of Electromagnetic Fields ([ICBE-EMF](#)), and signatory to the [EMF Scientist Appeal](#). Stay updated with her work via [LinkedIn](#), the [EHS newsletter](#) for the latest factsheets, science and policy news, and the [ICBE-EMF newsletter](#) for the commission's newest scientific publications.

Co-hosted by Amanda Kenton - [Safe Tech International - Uniting to Protect Life on Earth](#) and ACHES [ACHES's Substack | Substack](#) and <https://aches.international/environmental-wellbeing/>

...and

Kate Kheel – [Safe Tech International - Uniting to Protect Life on Earth](#)

This webinar was a project of [Safe Tech International](#), an association of individuals from around the world who have come together to support, and help grow the safe technology movement, and to encourage public participation in envisioning and ensuring a future that respects and protects all life.
